

CLM

Certified Lean
Master

WHAT'S CLM?

Certified Lean Masters are change agents that deliver results in meeting business objectives and contribute significant improvement to an organization's bottom line. They stimulate thinking by challenging conventional wisdom and providing options for the successful application of lean concepts across the supply chain from suppliers to customers and beyond.

About ISCEA

ISCEA, The International Supply Chain Education Alliance, conducts many workshops to improve the knowledge of Manufacturing and Service industry professionals worldwide. ISCEA's mission is to be a single source for Total Supply Chain Knowledge through Education, Certification, and Recognition. ISCEA is the developer of internationally recognized certification programs of Certified Supply Chain Manager (CSCM), Certified Supply Chain Analyst (CSCA), Certified Lean Master (CLM), and Certified RFID Master (RFIDSCM). ISCEA is the governing body for the Ptak Prize. ISCEA members typically hold mid to upper supply chain management positions in Global 2000 companies.

CLM Course Outline

There are 3 sessions of 3 days each providing 9 days of classroom instruction and coaching:

- During the breaks between sessions, participants work on their lean projects and have access to their instructor and a package of online tools. If participants have any question, they can communicate with ISCEA Instructor via email or phone.
- After 90 days, participants take CLM exam & forward us the CLM project for review.
- Then they come from the last session to present their succes.
- Most companies save 10 times or more Vs. the program fee of US\$3,750.
- We award them the CLM designation at this event.

A SESSION

Participants leave with an initial project charter and a 30-day plan of attack

3
days

Crafting a lean project, developing a project charter, mapping the current state.

- Current Status

WHY GO FOR IT?

- Attend three educational sessions of three days each with a four weeks break between sessions.
- Leverage a package of online tools that includes quizzes, templates, articles, samples, and presentations.
- Work on a lean project to improve one value stream at their organizations, create quantifiable improvements, and begin seeing immediate results.
- Receive coaching from their instructor at every step along the journey.
- Take a certification exam and have the opportunity to earn personal recognition as a Certified Lean Master.

WHAT PEOPLE ARE SAYING

Francesco Velluto, Vice President & Factory Manager, Vestas Nacelles Factory, Taranto, Italy

"I am very grateful to have attended the CLM program in Boulder, Colorado. I have been able to drive local and worldwide projects in my company and have created real added value as a change leader. I strongly recommend the CLM program to those who are willing to change and be winners."

Patrick Looby, Supply Chain Planning Manager

"The CLM program is a great way to begin working lean into your company. It covers all the principles and theories of lean and provides an opportunity to put these into practice. You will see how lean is and can be used in different work environments and have the opportunity to participate in great discussions with other classmates. This program is a key to successfully launching a lean journey."

Jodi Lynn Walsh, Lexmark International

"Don't miss this program. The CLM training is excellent, and the business results real and measurable. We have already realized significant improvements in our operations in just a few short months."
